

- Open with Anko giving a very embarrassed middle aged man help with his erectile dysfunction. Mostly by making him stare at her ass while she sways it. Ever since the end of the war, Anko's become a sex therapist. Oh, and she's outfitted herself with a dummy thicc ass. Obviously this works and the man gets his first erection in five years. Then he rushes home to his wife.
  - "Anko was built like a succubus conjured direct from the Grimoire of Gyatt itself."
- Her next patients come in. Surprise! It's the hokage and his wife! Naruto and Hinata have hit a... slump in their sex lives. Hinata's got two pregnancies worth of baby weight packed onto her hips. She's super embarrassed about it, and Naruto? Well he's more a boob man. Combine that with the stress of being hokage; well they need a lot of help.
  - Note: at this moment, Hinata's got a very broad ass but not much depth. That'll change in the first sex scene.
- Despite them being totally stumped on what to do. Anko knows what needs to happen; Hinata needs to learn to be confident in herself and Naruto needs to develop an ass fetish!
- Anko demonstrates how their therapy can go, by using the shadow clone to copy herself once. Then both Ankos pull up their skirts and coats and then parking their humungous mesh-clad booty square in Naruto and Hinata's laps. Anko gives them both a lapdance at the same time. Both Ankos then summon snakes to coil around their necks to act as leashes. Maybe something about sexy 'horny juice venom'?
  - "Pumpkin-sized swollen slabs of gluteal ass meat quivered in Naruto's lap. So big it actually spilled off his powerful legs. Never had any butt ever contracted a worse case of steatopygia, nor remained so perfect while doing so. Delicious vanilla mountain swells with nary a blemish. Butter smooth and shiny with prismatic oil. Anko had slicked her bum up just for this occasion."
- Anko's disappointed though, if they're going to rewire his brain to crave big soft butts, he's gonna have to cum a lot more. And they're both gonna have to be WAY more relaxed and receptive.
- She gives them the number to a... special spa run by a friend of hers in the red light district. This is where we introduce Luna Luna. Who serves as Anko's sexy assistant for the rest of the story.
  - Anko's pretty much naked except for some strategically placed (live) snakes.
  - Luna Luna's got her queen's blade outfit.
- Anko takes Naruto while Luna Luna plays with Hinata.
- ANKO SCENE:
  - Male enhancement plus hypnotic sublimation.
  - Straps him into a full-body massage chair (like what you'd find in a mall). But its smooth latex instead of leather, plus the back cushions are all shaped like butts, and there's a special divet to hold his junk... a concerningly large divet. So much so that the leg rest has to be bifurcated to make room for it.
  - Anko explains that normally developing a fetish can take years of exposure. OR.... They could do it all in one afternoon by absolutely blitzing his brain with hypnotic suggestions until his subconscious opens up. And then force him to cum as hard as he can several times in a row.
  - Naruto's nervous, especially when he sees a picture of how phat his nuts are gonna have to be to pull this off.
  - But if it means fixing his sex life he'll do it.
  - Anko plugs him into the chair and inserts the IV needles into his testicles.

- Then she starts to dance. We're talking full-on nasty twerk dancing here, while her snake clothes slither in and out and all over her.
- The combination of the hot and heavy riffs and her massive ass bouncing right in his face forcibly breaks down his mental barriers.
- Naruto becomes hypnotized and starts to lose himself in the glory of Anko's huge shiny ass. New fetish reinforced by the growth of his balls and the forced milking of his penis by the chair's onboard mecha-pussy... thingy.
- Anko leashes him again and pulls his face into her squeaky clean ass. Giving him some sexy hands-on lessons on how to properly worship a thicc woman's ass. Kisses, nibbles, licks, full bites, even a little tongueing
- Once he hits his maximum size (and his head's totally empty), Anko lets his penis out of the milking sleeve and anally rides him right there, hard and at maximum speed. Well trained asshole seemingly sucking his dick and drinking the cum straight from his balls.
- We cut there and move on to the next part.
- LUNA LUNA SCENE:
  - Hinata gets a two-on-one oil pool massage. Stripped naked and commanded to lay down on the table while Luna Luna massages her.
  - There's a butt-shaped pillow set into the top where the face hole usually is. Instead, there's a long hole at chest level to fit her boobs. And a third to expose her crotch.
  - Starts like a normal full body massage, until Luna Luna brings out her flower tentacles to tease her further. Suckle her nipples, tongue her pussy. Things like that. While Luna Luna herself focuses on the parts on top, he back and her thighs and her butt. Just to get her used to people massaging her bum.
  - She works her toy into a lather, and then splits herself into two. Luna and Luna each play with one of her glutes for a while.
  - Then the lighter skinned one breaks off to prepare a 'surprise' while the dark skinned Luna introduces Hinata to the joys of lesbian sex. By turning her tentacle codpiece thingy into a full sized knobby 'n weird shaped jelly dildo.
  - Light Luna gets them to lay on their sides facing each other, with each of their heads on one of the butt-pillow's glutes. Gets enough leverage to 'massage her pelvis from the inside'. Teaching her to clench her pussy properly and spanking her butt when she fails to.
  - Dark Luna meanwhile fires up a nearby stove and sticks some mason jars in boiling water. The jars are full of a dense pink jelly that melts from the heat.
    - This is Flesh Jelly, a special kind of body filler that's saturated with elastoderm (skin stretching proteins) and sex hormones. Enough to turn whatever gets blown up into a new eogenous zone.
    - Dark Luna loads the jelly into a gauntlet looking thing with needles coming out of the fingers. Picture scarecrow from the arkham games's glove. But the forearm part of the gauntlet had screw ports for the jars to attach to.
  - Dark Luna returns and Light Luna catches Hinata in a leg lock, forcing her hips up off the dildo, barely off it, while Dark Luna injects her ass and thighs with the jelly. Swelling it to a seriously fat size, like black pornstar levels of projection. Which on her is quite a bit of booty shelf. Losing their shape as they bloat into bubble-like mountains of meat.
  - Hinata doesn't know whether she likes this or she doesn't, but the fillers are making her crazy wet.

- She maxes out at fifty inches around the hips (Both Lunas measure her). Which isn't actually a huge change because of how wide her hips were. Like this:

- Still, they leave her to play with the dildo while they go and meet up with Anko.
- Next is this dialogue:
  - Light Luna: You DID make sure to give her the regular jelly and not the expanding kind, right?
  - Dark Luna: ...Uh yeah! Sure I did!
- Ends with a wildly masturbating Hinata coming down from her high. Until she feels an ominous, fleshy swelling rumble in her glutes...
- TSUNADE SCENE:
  - Luna Luna arrives just in time to see Anko playing with the new and improved Naruto. He's blindfolded and his balls have gotten so big they fill his lap. She's got him coiled up and she's riding him. Even though her tail's wrapped around his balls keeping him from cumming.
    - Anko's snake parts are deep purple and shiny, like amethyst gems.
  - Tsunade's strapped up in the corner in a web of elastic ropes. Spread eagle and upside down. Blindfolded and with vibrators taped to her thick nipples. Also she's got a bifurcated vibrating toy stuffing both her nether holes.
  - The headphones on her ears keep repeating subliminal hypnotic messages about sucking big dicks and loving the taste of big dicks. They're turning her into an insatiable throat-slut.
  - Anko and Luna Luna decide to stress test her trained throat with Naruto's big dick. They guide him to fuck her mouth, starting slow but going faster and faster. Tsunade gags badly but the mistresses activate her code word: **Sucker**.
  - Switch flipped, Tsunade happily swallows his cock. Weeks of compressed blowjob lessons sublimated into her subconscious all come out through pure

- muscle memory. She goes absolutely wild on his dick, smearing it with (black) lipstick as she sucks him off.
- But all the while, Naruto himself can't cum. Anko's still got him by the balls. And Luna and Luna are whispering in his ears. Rubbing his thighs with their massive soft asses. Boobs smushed on his forearms. Hypnotizing him manually ASMR style, so he cums when someone says the word: **Foxy**.
  - They make him cum 'up' Tsunade's throat multiple times by whispering the word over and over again. Just to reinforce the strength of the trigger phrase.
  - Ends with Naruto pulling out of Tsunade's mouth, miraculously, all the cum he shot into her mouth stays there. Only a few trickles escape her pursed lips.
  - The mistresses decide to reward Naruto by letting him fuck Tsunade's huge tits. Which they, of course, have enhanced into some crazy hentai boobs. Naruto fires between them so hard he actually shoots a line up Tsunade's stomach.
- **HINATA SCENE TWO:**
    - The mistresses return to Hinata, only to find her half catatonic with pleasure, and her ass swollen to a ridiculous size. Even bigger than Anko! And she can't stop cumming.
    - Turns out Dark Luna did in fact use the expanding jelly. Hinata's butt has gotten so big it's actually gone all the way back around to being heart shaped again.

- They consider bringing her out of her coming trance, but then decide now's the perfect time to do part two of the training. Twerking lessons!
- They handcuff her (fuzzy handcuffs) to a stripper pole and stick a hypno-helmet on her head. Then they start pumping her ears full of a special porno ASMR track of their own design. A remix of several high end twerking lesson tracks, lewd pop music, and subliminal messages about how much she *loves* anal sex. Through this, she gets her slutty trigger word: **Cutie**.
- Once she's done learning how to shake her ass they wheel in Naruto, now strapped to one of the special massage tables, and tell Hinata to ride his cock. Both husband and wife are so pent up that they end up going at it for hours.
- ANKO COILPLAY AND SNAKE VORE:
  - The mistresses bring all three toys together in one big grand finale. Activating the Snake-o-tron 9000 (name?) for some sexy vore play. Along with his two evil twins! A black snake for Tsunade and a white one for Hinata.
  - Luna Luna double teams Naruto while Anko and the robot snakes combine their coils to stimulate Hinata and Tsunade. Both women get pushed together naked and slick with lotion. Driven to make out like lesbians while the combined snake bodies coil and rub around and around their crotches. Slap their butts with their tails.
  - Anko catches Naruto around the ankle (or maybe waist?) in her coils and hangs him upside down. Then she shows him where Tsunade got her new blowjob skills from: *her*. She even unhinges her jaw to swallow his fat beef cannon all the way to the base. She sucks him hard while she rubs his balls all over her face. Making sure to scritch and tickle them with her sharp nails. There's a VR headset over his eyes so he can see, at first, her furiously blowing him. But then it changes to... the inside of Snake-O-Tron?
    - OTHER POSSIBILITY: Maybe make it a floating 69? Naruto has to eat her out and she won't stop sucking (no matter how much he cums). Until he gets her off? Maybe the virtual reality headset is actually a hypnosis tape instead? One that subliminally teaches him how to eat a girl out?
  - The Snake O Trons each take their own 'sexy morsel'. Hinata gets coiled up and fucked by the tip of her snake's tail. Forced to look into its hypnotic eyes of pretty swirling colors, while it hisses her trigger word over and over again. Tsunade gets the tongue treatment, it slithers around both her enormous cowtits in a figure eight before pushing into her mouth. Same thing happens with her, the snake hisses her trigger phrase in her ear to make her suck its tongue.
  - While they endure this. Luna Luna joins Anko in toying with Naruto. Anko hands him off while she plays with Tsunade and Hinata. Stopping both women just before they's totally swallowed. She tongues out both their (clean) asses with her long and forked tongue. And once she's done she pulls their thongs off with her tongue, as trophies. Hinata she gently works down her legs. But Tsunade is more advanced, so Anko pulls up instead until the material rips. Giving Tsunade one hell of a kinky front wedgie. It doesn't help that Tsunade's thong was a utilitarian spandex one, much tougher than Hinata's white lingerie.
  - Hinata seems tense though, so Anko works her way into her snake's mouth for some face-to-face time. Working her wedding ring off her finger while whispering that she'll take good care of Naruto while Hinata goes on this... journey<3 So she can just relax and let it happen; **cutie**.
  - The Luna Lunas split and then sandwich him from both sides at once. Grinding their full frontal naked bodies against him while their tentacles suspend him. Hips humping Dark Luna's abs on pure instinct.

- But then Anko springs a surprise on Luna and Luna; a third snake! A punishment for them making Hinata's ass bigger than Anko's. They get sandwiched and swallowed together. Same process as Tsunade and Hinata. Maybe even being forced to squish back into one girl.
- Each snake swallows its 'prey'. Forcing the horny subs down their huge gullets face first and into the fleshy pleasure chamber that is its stomach. Slowly and with their toes twitching the whole time. Throat works like a full-body massage. Tentacles attack them from all angles. Pin them down and forcibly pleasure them while hypnotic music plays through a speaker.
- Luna Luna tries to split to escape, but her snake sprouts a second head and they vore both her bodies at the same time!
- Naruto gets to watch all this in Anko's sexy grip. Pinned in a bed of her coils in a forced 'mommy' position (name?). It's that one where the man lays across the bigger woman's lap. And she nurses him while giving him a handjob. Just... way more aggressive because this is Anko. She keeps him erect even though she's already sucked his balls empty. Some real post orgasm torture if you know what I mean.
- EPILOGUE:
  - Short scene at the end where Naruto and Hinata are cuddling and watching TV. The news is on, apparently the news had caught Tsunade giving blowjobs to random guys behind a casino. Gasp! Who could have known she was such a slut!?
  - Apparently she's happy. And the married couple starts to feel frisky. Neither of them know the other one knows their trigger word.
  - But then they get attacked by snake coiled out of nowhere! Grabbing them both off the couch and tearing off their clothes. Anko materializes out from behind the couch, dressed like a dominatrix and hissing (sexily) that it's time for their 'weekly' checkup...
  - Ends with her triggering their hypnotic commands to make them fuck. While squished close together all snug and intimate inside her coils.
